## Nana Star

Elizabeth Sills and Elena Patrice tell the story that their grandmother told to her grandchildren in the picture book *Nana Star*.

"Join a little girl's magical adventures as she promises to bring a lost baby star home where he belongs. It won't be easy-he lives high up in the heavens."

My daughter liked the story and the star that Nana must help was her favorite character. The book is accompanied by a CD with a song that introduces the characters that will surely appear in the future books. We have enjoyed reading along with the CD and listening to the song about Nana Star.

I am not sure how many books are planned in the series, but I thought we could have been given more of the story in the first installment. But for my daughter, the story was the right length and she was satisfied with the ending and said she was looking forward to the next book in the series [Nana Star and the Moonman](#).

All that being said, the company gets an A+ for service. Through the Nana Star Foundation (a portion of all sales goes to the foundation), they help make life easier for children attending inner city schools. They also donate to a number of other charities and have given away thousands of books.

On the [Nana Star website](#), parents can download coloring pages from the book. One of the best features on the website is the videos. The story really comes to life as it is animated and set to music. And they even have the videos with sign language.

There is a misspelling in each book--if you send in a postcard with the error, you will receive an autographed photo of the real life Nana Star.

Nana Star is available at book retailers, from their [website](#) and from [Amazon.com](#).
