

# Ponderings from my Heart

## Nana Star Review

Saturday, September 6, 2008

As a new member of Parent Reviewers, I've had the pleasure of reviewing a wonderful new product for children called Nana Star. Nana Star is a book that comes with a plush toy as well as a CD featuring the Nana Star song and story.

The Nana Star story is about a little girl who enjoys playing outdoors, picking flowers, and frolicking among the wildflowers. When she gets sleepy she lays down in the soft meadow to take a little nap. When she wakes up she hears a soft voice calling out and follows the sound. What she finds is a tiny baby star who is scared and barely twinkling. The little girl promises to help the lost star get back to his home in the heavens and so the journey begins as the little girl becomes Nana Star.

My son enjoyed listening to this book on CD as well as being read the story by my husband or myself. The plush doll has been added to his collection of plush toys, proving that Nana Star, although absolutely perfect for any little girl, is also for little boys! The themes of friendship and imagination apply to both genders!

Elizabeth Owens is the creator of Nana Star. Her daughter, Linda Saker, illustrated the book in beautiful watercolors. Elizabeth Sills and Elena Patrice are the granddaughters of Elizabeth Owens and the writers of Nana Star.

A classic for children, the Nana Star book, CD, and plush toy would make an excellent gift for any boy or girl and a happy addition to anyone's library.
