ABOUT THE DOVE FOUNDATION

In 1991 The Dove Foundation began promoting family-friendly entertainment. Our standards and criteria are based on Judeo/Christian values, free from the pressure of commercial interests. We believe in a positive approach of commending high-quality, wholesome movies rather than condemning filmmakers for not meeting those standards.

For years we have watched the morals and attitudes of the entertainment industry slowly creep into our society. We maintain that the number of PG-13 and R rated films, with their increasingly salacious material, are not representative of the desires of millions of movie goers. It's time for positive family values to impact those in Hollywood instead of Hollywood impacting family values.

ABOUT EE PUBLISHING & PRODUCTIONS

ee Publishing & Productions believe that the simple story of Nana Star will be a success in today's society where it is hard for children to find appropriate role models. They also believe that parents will welcome a return to simpler, nostalgic times -- helping families recapture a little calm in a hectic world.
