Nana Star

I don't really remember life before [Nana Star](#). Seriously. This book and all of the magic surrounding it has consumed our family. Even my husband! Actually, he doesn't have a choice in the matter. We are true Nana Star fans (or "Twinkles", if you will) and it didn't take long for that to happen.

As soon as my toddler got her little hands on the [Nana Star plush doll](#) and attentively listened to me read her the story of a little girl in a blue princess dress, she was hooked. Ever since that day, the accompanying [book](#) and narrated story/song cd that came with the doll has been played continuously at naptime and bedtime. I even had to go so far as to loop the cd in her player, because she would keep getting out of bed to replay it.

In the story of Nana Star, a little girl finds a lost baby star. The little girl (aka Nana Star) pledges to help the little baby star find his way home, to the heavens above. When I read this book to my toddler, I see her get lost in the story and virtually put herself in the shoes of the little girl.

The authors of the Nana Star book series, Elizabeth Sills and Elena Patrice ("ee publishing"), are granddaughters of the real life Nana Star, [Elizabeth Owens](#). What a wonderful way to preserve and share their grandmother's special story. This is of the most enjoyable children stories I've read yet.

*Our readers can enjoy a discount of **10%** off the already discounted combination price for any plush and book together until 7/31/08. Just enter code "**mum10**" at checkout.

WIN IT!

We are thrilled to be able to offer our readers a giveaway! One lucky reader will have a chance to win a Nana Star plush doll and book combination (MSRP: \$38)
